Subject: RE: Draft FWM request to LWG
Date: 10/14/2005 09:48 AM

Jennifer and Burt - I talked with Eric about this yesterday afternoon and forwarded the draft memo to him as-is. We talked about the need for us to get FWM information from the LWG ASAP (and by October 21 or 24 at the latest) so that the Eco Team can have an informed discussion about what the LWG is doing with the FWM at our November 1-2 work session. If we don't get the requested info from the LWG by October 24, I'm not sure we can have any kind of substantive discussion about it on November 1-2, and thus, we won't be able to say anything about the FWM in the Eco Team's direction to the LWG in early November.

Eric - When you can, please let us know if you will go forward with asking the LWG for the specific FWM information we requested in the memo.

Thanks very much,
Mikell

Mikell and Burt,

I added some language, but Burt please add to it. It would also be a good idea to re-visit some of our e-mail requests on data needs and specifications to ensure we have included everything. I don't have time to do that before this needs to go out, so I will leave it in your hands.

-Jennifer
